VILLAGE OF CAYUGA HEIGHTS

DRAFT

PROPOSED LOCAL LAW I OF THE YEAR 2018

A LOCAL LAW TO AMEND THE ANNUAL SEWER RATES, AS DEFINED IN ARTICLE XII, SEWER RENTS, OF THE VILLAGE OF CAYUGA HEIGHTS ARTICLES

Be it enacted by the Board of Trustees of the Village of Cayuga Heights as follows:

Section I. PURPOSE

The purpose of this Local Law is to establish annual sewer rates of \$2.76/1000 gallons consumed for inside users and a rate of \$4.14/1000 gallons used for outside users, as defined in articles XII, Sewer Rents, of the Village of Cayuga Heights Articles.

Section II. AUTHORITY

This Local Law is enacted pursuant to the grant of powers of local governments provided for in (i) Section 10 of the Municipal Home Rule Law to adopt and amend local laws not inconsistent with the provisions of the New York State Constitution or not inconsistent with any general law relating to its property, affairs, government or other subjects provided for in said Section 10 of the Municipal Home Rule Law, (ii) General Municipal Law Article 14-F, (iii) General Municipal Law Sections 451 and 452, and (iv) Village Law Article 14.

Section III. ESTABLISHMENT OF SEWER RATES

As of January 1, 2019, annual sewer rates shall be established at a rate of \$2.76/1000 gallons used for treatment of waste water originating from properties located within the Village and a rate of \$4.14/1000 gallons used for treatment of waste water originating from properties located outside of the Village.

Section IV. SUPERSEDING EFFECT

Motion carried

Trustee Salton asked if the Village will be discussing bonding for funding of the WWTP expansion and will that impact future increases in the sewer rate. Mayor Woodard responded that the increased sewer rates will help pay the interest on the borrowed money.

b. GHD: WWTP Project (Exhibit 2019-098)

Nick Hatala from GHD was present to address any questions about discussing the WWTP project as a one or two phases project.

- The first part of the project will be the construction of the headworks facility; the second part is upgrades to the rest of the plant. The biggest issue with completing the project as a single, rather than in phases is that GHD would need another construction season to get the background work complete. WWTP Manager John McGrath urged the Mayor to not wait another year to begin work.
- Trustee Robinson reported that currently the WWTP staff is manually cleaning the grit filters, which is not the most affective process. This adds to the breakdown of other components utilized in the treatment system.
- The Board agreed to keep this project as two phases.
- The Village should hear about one remaining grant application for funding by next week.
- Mayor Woodard asked if we are not successful with receiving an additional grant this year can we go back and submit one for next year. Nick Hatala from GHD suggested we could.
- The next step for the WWTP will be bidding the project, and then submit to NYDEC in January. A plant inspection in February-March with construction to begin in the spring.
- Trustee Salton raised the question to GHD's Nick Hatala if GHD was familiar with point discharge increases. GHD does have some experience and did provide a plant expansion cost estimate which would allow for more discharge. Approval of the plant expansion then I and I must be addressed.
- Don Hartill from the Village of Lansing has purchased a state-of-the-art laser meter. Bolton Point has offered to let the Village piggyback on their supervisory control and data acquisition (SCADA) which is a control system architecture that uses computers, networked data communications and graphical user interfaces for high-level process supervisory management.

Along with this discussion GHD has requested two amendments for the Board to review. (Exhibit 2019-098)
